Dear Clear Creek Educational Community:

We are pleased to thank the voters of Clear Creek County for supporting our students and employees by voting in favor of 4A and 4B. At this point in time it appears as though both 4A and 4B passed. The official results will be determined through a canvass process that must be completed by November 28, 2018.

Funding from these ballot initiatives will not become available until 2020-21 school year. However, we will be working toward utilizing this funding in a responsible and transparent manner. Fiscal sustainability is a top priority for the Clear Creek Board of Education, and efforts will begin immediately in developing purchasing strategies for the capital improvement projects. In order to attract and retain staff, compensation strategies will also be revisited.

The funding provided by 4A and 4B will provide an opportunity to address many financial challenges within the Clear Creek School District.

With much appreciation,

Roslin Marshall
Superintendent
