#### INDEPENDENT AUDITORS' REPORT

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Clear Creek School District No. RE-1, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Clear Creek School District No. RE-1, as of June 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison schedules, the schedules of the District's proportionate share, and the schedules of the District's contributions on pages 48 - 56 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements are fairly stated in all material respects in relation to the financial statements as a whole.

December 18, 2020

#### Clear Creek School District RE-1

Management's Discussion and Analysis Fiscal Year Ending June 30, 2020

As management of the Clear Creek School District RE-1 (the District), we offer readers of the District's basic financial statements this narrative and analysis of the financial activities of the Clear Creek School District RE-1 for the year ended June 30, 2020. We encourage readers to consider the information presented here in conjunction with additional information provided by auditors in the Independent Auditor's Report.

#### **Financial Highlights**

The District's general fund balance increased to \$7,323,253 from \$6,687,808 for the year ending June 30, 2020.

The operations of the District are funded primarily by local property tax revenues and state revenues received under the State School Finance Act (the Act). Property tax revenue for the year was \$8,528,571 Specific Ownership tax revenue was \$637,894 and total State Equalization Revenue under the Act was \$1,974,433.

#### **Overview of Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The basic statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

#### Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business.

The statement of net assets presents information on all the District's assets and liabilities, with the difference between the two being reported as net assets. Over time, the increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The income statement presents information showing how the District's net assets changed during the year. All changes in the Fund Balance are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future periods (for example, salaries and benefits earned but unpaid as of year end).

MD&A i

#### Fund Financial Statements

A Fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District keeps track of these monies to ensure and demonstrate compliance with finance-related legal requirements. Governmental Funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. The Fund tracking is reported in the auditor's report.

#### Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the financial statements.

#### **Government-wide Financial Analysis**

As noted previously, net assets may serve over time as a useful indicator of the District's financial position. For the year ending June 30, 2020, the District's combined assets were less than liabilities by \$2,533,903. Of this amount, \$303,423 is restricted to comply with Article X, Section 20 of the Colorado Constitution, known as the TABOR Amendment. \$1,090,971 is restricted for long-term obligations of the District, and \$8,564,664 is from the balance invested in capital assets. The balance unrestricted and available for meet the District's ongoing needs is negative \$(12,492,961), due to the recording of the District's share of the potential PERA net pension liability (see note 9).

MD&A iii

#### **Financial Analysis of the District's Funds**

Governmental funds. The focus for the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year the District's governmental funds reported a combined ending fund balance of \$13,076,592 compared to \$8,944,797 last year.

The general fund is the major operating fund of the District. At the end of the current fiscal year the fund balance increased by \$635,445 to \$7,323,253 from \$6,687,808 last year.

The bond redemption fund is used to collect local property tax revenues specifically raised to pay off the long-term bond debt of the District, and to make such payments as they become due. At the end of the current fiscal year the fund balance was \$1,090,971 all of which was restricted for principal and interest payments.

**Proprietary-type funds.** Proprietary-type funds are used to account for activities that have the characteristics of business activities. The sewer treatment plant, tuition preschools and the food service are activities of this nature. Fund balances in these funds are similar to retained earnings in business activities.

The sewer treatment plant fund was established to account for a treatment facility that is larger than is needed to service the high school, where it was built, and in anticipation of its transfer to a separate sanitation district. Currently, all of the operating costs are absorbed by the high school, its only user. The fund balance at June 30, 2020, was \$249,526 and represents the facility net of accumulated depreciation and the balance of prepaid insurance on the facility.

#### **General Fund Budgetary Highlights**

The District's budget is prepared according to Colorado law and is based on accounting for certain transactions on a basis of cash receipts and disbursements. The most significant budgeted fund is the General Fund. The General Fund had a net income of \$635,445. In total, the district received \$434,897 more in revenue than budgeted. \$257,620 of this funding came from Federal Forest Reserve Funds.

The district budgeted \$9,518,514 for expenditures but only spent \$9,274,470.

The board of education has made an adjustment in the FY 20-21 budget taking into account this net income.

MD&A iv

#### **Capital Asset and Debt Administration**

**Capital assets**. The District's investment in capital assets as of June 30, 2020, amounts to \$13,891,631 (net of related depreciation). This investment in capital assets consists of land, buildings, vehicles and equipment. The detail of this investment is in Note 5 to the financial statements.

#### Long-term debt.

As of June 30, 2020, the District's long-term debt consisted of \$5,247,215 in General Obligation Bonds and Retirement and Leave Obligations of approximately \$321,746. The detail of Long-term debt is in Note 7 to the financial statements.

#### **Economic Factors and Next Year's Budget**

The primary factors driving the budget for the District continue to be student enrollment and the State's economy, which continues to underfund K-12 education. Additionally, the winding down over the next several years of the Henderson Mine, the primary taxpayer in the County, continues to have a significant impact on the District's funding.

Total enrollment for the 2018-2019 school year was 760, including preschools and the charter school. The enrollment for the 2019-2020 school year was 717, a decrease of 43. Enrollment for 2020-2021 is 682, a decrease of another 35. When a District's enrollment is declining, the State's Per-Pupil funding is based on the highest average of the current and the prior two, three or four years' full-time equivalent pupils. The funded average pupil count for 2018-2019 was 762.3 and the funded count for 2019-2020 was 752.5. The funded count for 2020-2021 is 718.2, a decrease of 34.3, even though the state now counts full-day kindergartners as 1.0 FTE. The large decrease in per pupils from 2019-2020 to 2020-2021 largely results from the covid pandemic. Further, the number of pupils attending the charter school in the District, Georgetown Community School (GCS), shifts per-pupil funding revenue from the General Fund of the District to that school.

The funded pupil count for GCS was 97.2 for 2018-2019 and the count for 2019-2020 was 89. The GCS count for 2020-2021 will be 86.0.

Because the County's total assessed valuation continues to decrease as a result of the gradual closure of the County's largest taxpayer, the Henderson Mine, the District's State Formula Funding for 2019-2020 was partially made up of State Equalization, making the District's Formula Funding subject to the so-called Negative Factor, which reduces or even zeroes out the State Equalization portion. For 2019-2020, State Equalization was \$2,492,128, and the Negative Factor, based on a percentage of total formula funding, was

MD&A v

\$518,628 reducing the Districts revenues by that much. Total Formula Funding will be \$7,261,673 for 2020-2021; the State Equalization portion will be \$2,553,845 and the Negative Factor will be a \$1,033,728 reduction. Further, CDE rescissions of \$2,696 and \$2,467 were deducted from State Equalization in 2019-2020 and 2020-2021.

The District is mitigating the impact of this loss of funding by budget cuts and use of Fiscal Emergency Reserve funds until the situation improves.

#### **Requests for Information**

The financial report is designed to provide a general overview of the District's finances for all those with an interest in the District. Questions concerning any of the information provided in this report or requests for additional information should be addressed to:

Clear Creek School District RE-1 320 Hwy. 103 P. O. Box 3399 Idaho Springs, CO 80452

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore, are not reported in the funds.

Long-term liabilities, including bonds payable (\$5,000,000), long-term retirement (\$74,309), compensated absences (\$247,437), bond premium net of amortization (\$247,215), and accrued interest (\$12,600), are not due and payable in the current period and are not reported in the funds.

Long-term liabilities and assets related to pensions are not due and payable in the current period and therefore, are not reported in the funds. This liability includes net pension liability (\$14,248,734), net OPEB liability (\$700,700), deferred outflows related to pensions and OPEB \$2,231,510, and deferred inflows related to pensions and OPEB (\$11,527,938).

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES Year Ended June 30, 2020

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ 4,131,795
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expense in the statement of activities. This is the amount by which depreciation (\$1,123,694) exceeded	
capital outlay of \$961,554, in the current period.	(162,140)
Bond proceeds are reported as financing sources in the governmental funds and increase fund balance. In the government-wide statements, however, issuing debt increases long-term liabilities	
in the statement of net assets and does not effect the statement of activities.	(5,297,304)
Deferred Charges related to pensions and OPEB are not recognized in the governmental funds.	
However, for the government-wide funds that amounts are capitalized and amortized.	3,653,768
Some expenses reported in the statement of activities do not require current financial resources and are not reported in the funds. These include bond principal payments \$1,990,000, amortization	
of deferred loss, (\$76,896), decrease in early retirement \$37,584, increase in compensated absences (\$7,045), increase in accrued interest (\$12,600), and amortization of bond premium \$50,089.	1,981,132
(#1,5010), mercase in accrace interest (#12,5000), and amortization of bond premium #50,000.	1,701,132
Change in net position of governmental activities	\$ 4,307,251

# NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

#### NOTE 1: <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u>

The accounting policies of Clear Creek School District No. RE-1 (the "District") conform to generally accepted accounting principles as applicable to governmental units. Following is a summary of the more significant policies:

#### Reporting Entity

The financial reporting entity consists of the District and organizations for which the District is financially accountable. All funds, organizations, institutions, agencies, departments and offices that are not legally separate are part of the District. In addition, any legally separate organizations for which the District is financially accountable are considered part of the reporting entity. Financial accountability exists if the District appoints a voting majority of the organization's governing board and is able to impose its will on the organization, or if the organization provides benefits to, or imposes financial burdens on the District.

#### Discretely Presented Component Unit

Georgetown Community School is a public school authorized by the State of Colorado to provide alternatives for parents, pupils, and teachers. The School has a separate governing board but is fiscally dependent on the District for a majority of funding and their exclusion would render the District's financial statements incomplete. Separate financial statements are available at the School's office.

#### Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of Net Position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the District is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of the given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment.

# NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Government-Wide and Fund Financial Statements (Continued)

Program revenues include 1) charges to students or other customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the District's government-wide financial statements.

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement* focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Fiduciary funds utilize the accrual basis of accounting.

Governmental fund financial statements are reported using the current *financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Property taxes, specific ownership taxes, grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due.

# NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

# Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the fund's principal ongoing operations.

Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's practice to use restricted resources first, then unrestricted resources as they are needed.

In the fund financial statements, the District reports the following major funds:

The *General Fund* is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

The Grants Fund accounts for Federal, State and local grants received by the District.

The *Bond Redemption Fund* accounts for resources accumulated for, and payments made on, long-term debt obligations of the District.

The *Bond Project Fund* is a capital projects fund which accounts for bond proceeds received for capital improvement projects within the District.

The Sewer Treatment Enterprise Fund accounts for the maintenance and operation of the sewer treatment plant at the High School.

Additionally, the District reports the following fund type:

The Agency Fund is used to account for resources used to support each school's student and fundraising activities. The District holds all resources in a purely custodial capacity.

#### Assets, Liabilities and Fund Balance/Net Position

*Investments* – Investments are stated at fair value.

Receivables – All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

### NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Assets, Liabilities and Fund Balance/Net Position (Continued)

*Inventories* – Inventories of proprietary funds are valued at the lower of cost (first-in, first-out) or market.

Due To and Due From Other Funds – Interfund receivables and payables arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed.

Capital Assets – Capital assets, which include property and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Property and equipment of the District is depreciated using the straight line method over the following estimated useful lives.

Land Improvements	25 years
Buildings	50 years
Equipment	5 to 20 years

Deferred Outflows/Inflows of Resources - In addition to assets, the statement of financial position and balance sheets will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position and fund balance that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to the liabilities, the statement of financial position and balance sheets will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position and fund balance that applies to a futures period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

*Unearned Revenues* – The unearned revenues include amounts received but not yet available for expenditure.

# NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Assets, Liabilities and Fund Balance/Net Position (Continued)

Vacation, Sick Leave, and Other Compensated Absences – District employees are entitled to certain compensated absences based on their length of employment and are allowed to accumulate unused absences. These compensated absences are recognized as current salary costs when accrued in the proprietary fund types and when paid in the governmental fund types. A long-term liability has been recorded in the government-wide financial statements for the accrued compensated absences.

Long-Term Debt – In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary funds. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as current expenditures.

Net Position— The government-wide and business-type fund financial statements utilize a net position presentation. Net position is categorized as investment in capital assets, restricted, and unrestricted.

Net Investment in Capital Assets is intended to reflect the portion of net position which are associated with non-liquid, capital assets less outstanding capital asset related debt. The net related debt is the debt less the outstanding liquid assets and any associated unamortized cost.

Restricted Net Position are liquid assets, which have third party limitations on their use.

<u>Unrestricted Net Position</u> represents assets that do not have any third party limitation on their use. While School management may have categorized and segmented portion for various purposes, the School Board has the unrestricted right to revisit or alter these managerial decisions.

# NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Assets, Liabilities and Fund Balance/Net Position (Continued)

Fund Balance Classification – The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- Nonspendable This classification includes amounts that cannot be spent because they
  are either not spendable in form or are legally or contractually required to be maintained
  intact. The District considers its inventories as nonspendable as of June 30, 2020.
- Restricted This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. The District has classified Emergency Reserves as being restricted because their use is restricted by State Statute for declared emergencies. They have also restricted funds for insurance, CPP Preschool expenses, debt service, and food service.
- Committed This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Directors. These amounts cannot be used for any other purpose unless the Board of Directors removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. As of June 30, 2020, the District has a portion of its fund balance in the General Fund committed to reflect the amount of property taxes collected in May 2020 that will be used to pay future operating requirements. This was approved by the Board in October 2017.
- Assigned These amounts do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. As of June 30, 2019, the District's fund balance in the Capital Reserve Fund is assigned to future capital expenditures. These amounts are assigned by the Finance Director per the financial policy established by the Board.

#### NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Assets, Liabilities and Fund Balance/Net Position (Continued)

 <u>Unassigned</u> – This classification includes the residual fund balance for the General Fund. The Unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of Assigned fund balance amounts.

The District would typically use Restricted fund balances first, followed by Committed resources, and then Assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend Unassigned fund balances.

#### **Property Tax Revenues**

Property taxes are levied on December 15 based on the assessed value of property as certified by the County Assessor on October 1. The property tax may be paid in total by April 30 or one-half payment by February 28 and the second half by June 15. The billings are considered due on these dates. The bill becomes delinquent and penalties and interest may be assessed by the County Treasurer on the post mark day following these dates. The tax sale date is the first Thursday of November. Under Colorado Law, all property taxes become due and payable on January 1, in the year following that in which they are levied.

#### Comparative Data

Comparative total data for the prior year has been presented in the accompanying financial statements in order to provide an understanding of changes in the District's financial position and operations. However, complete comparative data in accordance with generally accepted accounting principles has not been presented since its inclusion would make the financial statements unduly complex and difficult to read. Data in these columns do not present financial position or results of operations in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

# NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

#### NOTE 2: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### **Budgets**

Budgets are adopted on a basis consistent with generally accepted accounting principles (except for the Enterprise Funds which budget on a Non-GAAP basis). Annual appropriated budgets are adopted for all funds. All annual appropriations lapse at fiscal year end.

The District adheres to the following procedures in establishing the budgetary data reflected in the financial statements:

- Budgets are required by state law for all funds. By May 31, the Superintendent of Schools submits to the Board of Education a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them. All budgets lapse at year end.
- Public hearings are conducted by the Board of Education to obtain taxpayer comments.
- Prior to June 30, the budget is adopted by formal resolution.
- Expenditures may not legally exceed appropriations at the fund level.
- Revisions that alter the total expenditures of any fund must be approved by the Board of Education.
- Budgeted amounts reported in the accompanying financial statements are as originally adopted or amended by the Board of Education.
- Encumbrances represent a commitment for the estimated amount of expenditures which could ultimately result from the fulfillment of uncompleted purchase orders and contracts. Encumbrances lapse at the end of each fiscal year (June 30). Lapsed encumbrances are then reviewed by department heads to determine those which will remain canceled and those which will be reinstated and paid from appropriations for the following year. Encumbrances are therefore not considered expenditures until an actual liability is incurred. Encumbrances are not shown as a reservation of fund equity at fiscal year-end because they have lapsed and are pending reinstatement.

#### **State Compliance**

For the year ended June 30, 2020, actual expenditures in the Bond Redemption Fund and the Sewer Treatment Fund exceeded budgeted amounts by \$1,241,286 and \$9,274, respectively. This may be a violation of state statute.

# NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

#### NOTE 3: <u>CASH AND INVESTMENTS</u>

A reconciliation of the cash and investment components on the balance sheet to the cash and investments categories in this footnote are as follows:

Petty Cash	\$ 79
Deposits	448,011
Investments	13,997,009

Total Cash and Investments \$ 14,445,099

Cash and investments are reported in the financial statements as follows:

Governmental Activities	\$ 14,049,937
Business - Type Activities	136,861
Fiduciary Funds	<u>258,301</u>

Total <u>\$ 14,445,099</u>

#### **Deposits**

#### <u>Custodial Credit Risk – Deposits</u>

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations.

At June 30, 2020, State regulatory commissioners have indicated that all financial institutions holding deposits for the District are eligible public depositories. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. PDPA allows the financial institution to create a single collateral pool for all public funds held. The pool is to be maintained by another institution, or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the uninsured deposits.

The District has no policy regarding custodial credit risk for deposits.

At June 30, 2020, the District had deposits with financial institutions with a carrying amount of \$448,011. The bank balances with the financial institutions were \$633,914. Of these balances, \$294,803 was covered by federal depository insurance and \$339,111 was covered by collateral held by authorized escrow agents in the financial institutions name (PDPA).

# NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

#### **NOTE 3:** CASH AND INVESTMENTS (Continued)

#### Investments

As of June 30, 2020, the District has the following investments:

	<u>Fair Value</u>	Weighted Average <u>Maturity (Years)</u>	Standard & Poor's Rating
ColoTrust CSAFE	\$ 35,338 	N/A N/A	AAAm AAAm
Total	<u>\$ 13,997,009</u>		

#### Interest Rate Risk

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

#### Credit Risk

Colorado statutes specify in which instruments the units of local government may invest which includes:

- Obligations of the United States and certain U.S. government agency securities
- General obligation and revenue bonds of U.S. local government entities
- Bankers' acceptances of certain banks
- Local government investment pools
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts

The above investments are authorized for all funds and fund types used by Colorado school districts.

# NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

#### **NOTE 3:** CASH AND INVESTMENTS (Continued)

**Investments** (Continued)

#### Local Government Investment Pools

The District had invested \$13,961,671 in the Colorado Surplus Asset Fund Trust (CSAFE) an investment vehicle established for local government entities in Colorado pursuant to Title 24, Article 75, Part 7 of the Colorado Revised Statues, to pool surplus funds for investment purposes. The State Securities Commissioner administers and enforces the requirements of creating and operating the Pools. CSAFE reports its underlying investments at amortized cost and is considered a qualifying external investment pool under GASB Statement 79. CSAFE operates similar to money market funds where each share is equal in value to \$1.00. The fair value of the position in the pools is the same as the value of the pooled shares.

The District had invested \$35,338 in the Colorado Government Liquid Asset Trust (ColoTrust) which has a credit rating of AAAm by Standard and Poor's. ColoTrust is an investment vehicle established for local government entities in Colorado to pool surplus funds and is regulated by the State Securities Commissioner. It operates similarly to a money market fund and each share is equal in value to \$1.00. Investments consist of U.S. Treasury and U.S. Agency securities, and repurchase agreements collateralized by U.S. Treasury and U.S. Agency securities. A designated custodial bank provides safekeeping and depository services in connection with the direct investment and withdrawal functions. Substantially all securities owned are held by the Federal Reserve Bank in the account maintained for the custodial bank. The custodian's internal records identify the investments owned by the entities.

#### NOTE 4: <u>INTERFUND BALANCES AND TRANSFERS</u>

Interfund Balances at June 30, 2020 are as follows:

	<u>Due To</u>	<u>Due From</u>
General Fund	\$ 572,756	\$ -
Grant Fund	-	396,762
Bond Redemption Fund	-	1,484

# NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

### **NOTE 7: LONG-TERM DEBT** (Continued)

Compensated absences and early retirement are expected to be liquidated with revenues of the General Fund.

### **General Obligation Bonds**

On December 15, 2011, the District issued General Obligation Refunding Bonds Series 2011, in the amount of \$13,390,000. Proceeds were used to advance refund a portion of the 2002 General Obligation Refunding Bonds. The bonds are due in annual installments starting on December 1, 2012 through December 1, 2019. These bonds bear interest at 0.65% to 2.9% payable annually on June and December 1.

In November 2019, the District issued General Obligation Bonds, Series 2019 in the amount of \$5,000,000. Proceeds from the bonds will used be for the purpose of improving and repairing existing District grounds and facilities and for other capital outlay expenditures approved by voters in the November 6, 2018 election. The bonds are due in annual installments starting on December 1, 2020 through December 1, 2024. These bonds bear interest at a rate of 2.00% which is payable on June 1 and December 1.

Debt Service requirements to maturity for the bonds are as follows:

Year Ended _June 30:	Princi	<u>pal</u>	Interest	<u>Total</u>
2021 2022 2023 2024 2025	"	,000	141,800 117,850 88,300 57,850 21,200	\$ 1,081,800 1,087,850 1,088,300 1,087,850 1,081,200
Total	<u>\$ 5,000</u>	<u>,000</u> \$	427,000	\$ 5,427,000

### Sewer Treatment Loan (Business Type Activities)

The Sewer Treatment Fund of the District has borrowed funds in the amount of \$500,000 from Clear Creek County (the County). These funds were used to complete the construction of the Sewer Treatment Plant. In exchange for these agreements, the County and the District are entitled to a reservation of capacity in the treatment plant, and the proceeds for the subsequent sale of reserved capacity. The County is to be reimbursed solely from the sale of excess capacity in the treatment plant. This note has been classified as long term in the financial statements of the Sewer Fund.

# NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

## **NOTE 7: LONG-TERM DEBT** (Continued)

#### **Defeased Debt**

On December 1, 2011, the District deposited \$12,635,000 of the General Obligation Refunding Bonds Series 2002 into an irrevocable trust with an escrow agent to provide for future debt service payments on the refunded bonds. As a result, the refundable bonds are considered to be defeased, and the related liability for the bonds has been removed from the District's liabilities. The outstanding balance of the defeased bonds was \$0 as of June 30, 2020.

### NOTE 8: <u>JOINTLY GOVERNED ORGANIZATIONS</u>

#### **BOCES**

The District, in conjunction with other surrounding districts, created the Mt. Evans Board of Cooperative Educational Services (the "BOCES"). The BOCES is an organization that provides member districts educational services at a shared lower cost per district. The BOCES board is comprised of one member from each participating district. The BOCES financial statements can be obtained at their office located at 10595 Highway 119, Black Hawk, CO 80422.

### NOTE 9: <u>DEFINED BENEFIT PENSION PLAN</u>

### **Summary of Significant Accounting Policies**

Pensions. The District participates in the School Division Trust Fund (SCHDTF), a cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the SCHDTF have been determined using the economic resources measurement focus and the accrual basis of accounting.

For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

### **NOTE 9: DEFINED BENEFIT PENSION PLAN** (Continued)

### General Information about the Pension Plan (Continued)

The Colorado General Assembly passed significant pension reform through Senate Bill (SB) 18-200: Concerning Modifications To the Public Employees' Retirement Association Hybrid Defined Benefit Plan Necessary to Eliminate with a High Probability the Unfunded Liability of the Plan Within the Next Thirty Years. The bill was signed into law by Governor Hickenlooper on June 4, 2018. SB 18-200 makes changes to certain benefit provisions. Some, but not all, of these changes were in effect as of June 30, 2020.

#### General Information about the Pension Plan

Plan description. Eligible employees of the District are provided with pensions through the SCHDTF—a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at <a href="https://www.copera.org/investments/pera-financial-reports">www.copera.org/investments/pera-financial-reports</a>.

Benefits provided as of December 31, 2019. PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA benefit structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit.
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

The lifetime retirement benefit for all eligible retiring employees under the Denver Public Schools (DPS) benefit structure is the greater of the:

• Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit.

## NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

## **NOTE 9: DEFINED BENEFIT PENSION PLAN** (Continued)

### General Information about the Pension Plan (Continued)

• \$15 times the first 10 years of service credit plus \$20 times service credit over 10 years plus a monthly amount equal to the annuitized member contribution account balance based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100 percent of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50 percent or 100 percent on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

As of December 31, 2019, benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments, referred to as annual increases in the C.R.S., once certain criteria are met. Pursuant to SB 18-200, the annual increase for 2019 is 0.00 percent for all benefit recipients. Thereafter, benefit recipients under the PERA benefit structure who began eligible employment before January 1, 2007, and all benefit recipients of the DPS benefit structure will receive an annual increase of 1.25 percent unless adjusted by the automatic adjustment provision (AAP) pursuant to C.R.S. § 24-51-413.

Benefit recipients under the PERA benefit structure who began eligible employment on or after January 1, 2007, will receive the lessor of an annual increase of 1.25 percent or the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers for the prior calendar year, not to exceed 10 percent of PERA's Annual Increase Reserve (AIR) for the SCHDTF. The AAP may raise or lower the aforementioned annual increase by up to 0.25 percent based on the parameters specified in C.R.S. § 24-51-413.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the lifetime retirement benefit formula(s) shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

## NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

### **NOTE 9: DEFINED BENEFIT PENSION PLAN** (Continued)

#### General Information about the Pension Plan (Continued)

Contributions provisions as of June 30, 2020: Eligible employees of, the District and the State are required to contribute to the SCHDTF at a rate set by Colorado statute. The contribution requirements for the SCHDTF are established under C.R.S. § 24-51-401, et seq. and § 24-51-413. Eligible employees are required to contribute 8.75 percent of their PERA-includable salary during the period of July 1, 2019 through June 30, 2020. Employer contribution requirements are summarized in the table below:

	July 1, 2019
	Through June 30,
	2020
Employer contribution rate	10.40%
Amount of employer contribution apportioned to the Health	(1.02)%
Care Trust Fund as specified in C.R.S. § 24-51-208(1)(f)	
Amount apportioned to the SCHDTF	9.38%
Amortization Equalization Disbursement (AED) as specified	4.50%
in C.R.S. § 24-51-411	
Supplemental Amortization Equalization Disbursement	5.50%
(SAED) as specified in C.R.S. § 24-51-411	
Total employer contribution rate to the SCHDTF	19.38%

Contribution rates for the SCHDTF are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

As specified in C.R.S. § 24-51-414, the State is required to contribute \$225 million each year to PERA starting on July 1, 2018. A portion of the direct distribution payment is allocated to the SCHDTF based on the proportionate amount of annual payroll of the SCHDTF to the total annual payroll of the SCHDTF, State Division Trust Fund, Judicial Division Trust Fund, and Denver Public Schools Division Trust Fund. A portion of the direct distribution allocated to the SCHDTF is considered a nonemployer contribution for financial reporting purposes.

Subsequent to the SCHDTF's December 31, 2019, measurement date, HB 20-1379 Suspend Direct Distribution to PERA Public Employees Retirement Association for 2020-21 Fiscal Year, was passed into law during the 2020 legislative session and signed by Governor Polis on June 29, 2020. This bill suspends the July 1, 2020, \$225 million direct distribution allocated to the State, School, Judicial, and DPS Divisions, as required under Senate Bill 18-200.

Employer contributions are recognized by the SCHDTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contributions to the SCHDTF. Employer contributions recognized by the SCHDTF from the District were \$1,109,273 for the year ended June 30, 2020.

# NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

### **NOTE 9: DEFINED BENEFIT PENSION PLAN** (Continued)

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability for the SCHDTF was measured as of December 31, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2018. Standard update procedures were used to roll-forward the total pension liability to December 31, 2019. The District's proportion of the net pension liability was based on the District's contributions to the SCHDTF for the calendar year 2019 relative to the total contributions of participating employers and the State as a nonemployer contributing entity.

At June 30, 2020, the District reported a liability of \$14,248,734 for its proportionate share of the net pension liability that reflected a reduction for support from the State as a nonemployer contributing entity. The amount recognized by the District as its proportionate share of the net pension liability, the related support from the State as a nonemployer contributing entity, and the total portion of the net pension liability that was associated with the District were as follows:

The District's proportionate share of the net pension liability	\$ 14,248,734
The State's proportionate share of the net pension liability as a nonemployer contributing entity associated with the District.	\$ 2,289,091
Total	\$ 16,537,825

At December 31, 2019, the District's proportion was 0.09537 percent, which was an increase of 0.00323 percent from its proportion measured as of December 31, 2018.

For the year ended June 30, 2020, the District recognized pension income of \$2,518,173 and income of \$61,091 for support from the State as a nonemployer contributing entity. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

## NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

## **NOTE 9: DEFINED BENEFIT PENSION PLAN** (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

	<u>Deferred</u>	<u>Deferred</u>
	Outflows of	<u>Inflows of</u>
	<u>Resources</u>	<u>Resources</u>

## **NOTE 9: DEFINED BENEFIT PENSION PLAN** (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Actuarial assumptions. The total pension liability in the December 31, 2018 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.40 percent
Real wage growth	1.10 percent
Wage inflation	3.50 percent
Salary increases, including wage inflation	3.50 – 9.70 percent
Long-term investment rate of return, net of pension	
plan investment expenses, including price inflation	7.25 percent
Discount rate	7.25 percent
Post-retirement benefit increases:	
PERA benefit structure hired prior to 1/1/07;	
and DPS benefit structure (automatic) <sup>1</sup>	1.25 percent compounded
	annually
PERA benefit structure hired after 12/31/06	
(ad hoc, substantively automatic) <sup>1</sup>	Financed by the
·	Annual Increase Reserve

<sup>&</sup>lt;sup>1</sup> For 2019, the annual increase was 0.00 percent.

Healthy mortality assumptions for active members reflect the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Post-retirement non-disabled mortality assumptions were based on the RP-2014 Healthy Annuitant Mortality Table, adjusted as follows:

- Males: Mortality improvement projected to 2018 using the MP-2015 projection scale, a 93 percent factor applied to rates for ages less than 80, a 113 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 68 percent factor applied to rates for ages less than 80, a 106 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

# NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

### **NOTE 9: DEFINED BENEFIT PENSION PLAN** (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

For disabled retirees, the mortality assumption was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The actuarial assumptions used in the December 31, 2018, valuation were based on the results of the 2016 experience analysis for the periods January 1, 2012, through December 31, 2015, as well as, the October 28, 2016, actuarial assumptions workshop and were adopted by the PERA Board during the November 18, 2016, Board meeting.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016.

Several factors were considered in evaluating the long-term rate of return assumption for the SCHDTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the most recent adoption of the long-term expected rate of return by the PERA Board, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

# NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

## **NOTE 9: DEFINED BENEFIT PENSION PLAN** (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
U.S. Equity – Large Cap	21.20%	4.30%
U.S. Equity – Small Cap	7.42%	4.80%
Non U.S. Equity – Developed	18.55%	5.20%
Non U.S. Equity – Emerging	5.83%	5.40%
Core Fixed Income	19.32%	1.20%
High Yield	1.38%	4.30%
Non U.S. Fixed Income – Developed	1.84%	0.60%
Emerging Market Debt	0.46%	3.90%
Core Real Estate	8.50%	4.90%
Opportunity Fund	6.00%	3.80%
Private Equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	100.00%	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25 percent.

Discount rate. The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

Total covered payroll for the initial projection year consists of the covered payroll of the
active membership present on the valuation date and the covered payroll of future plan
members assumed to be hired during the year. In subsequent projection years, total
covered payroll was assumed to increase annually at a rate of 3.50 percent.

## NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

## **NOTE 9: DEFINED BENEFIT PENSION PLAN** (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

- Employee contributions were assumed to be made at the member contribution rates in effect for each year, including the scheduled increases in SB 18-200 and the additional 0.50 percent resulting from the 2018 AAP assessment, statutorily recognized July 1, 2019, and effective July 1, 2020. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law for each year, including the scheduled increase in SB 18-200 and the additional 0.50 percent, resulting from the 2018 AAP assessment, statutorily recognized July 1, 2019, and effective July 1, 2020. Employer contributions also include the current and estimated future AED and SAED, until the actuarial value funding ratio reaches 103 percent, at which point, the AED and SAED will each drop 0.50 percent every year until they are zero. Additionally, estimated employer contributions reflect reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- As specified in law, the State provides an annual direct distribution of \$225 million, which
  commenced July 1, 2018, that is proportioned between the State, School, Judicial, and DPS
  Division Trust Funds based upon the covered payroll of each Division. The annual direct
  distribution ceases when all Division Trust Funds are fully funded.
- Employer contributions and the amount of total service costs for future plan members
  were based upon a process to estimate future actuarially determined contributions
  assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial fiduciary net position, as, per statute, AIR
  amounts cannot be used to pay benefits until transferred to either the retirement benefits
  reserve or the survivor benefits reserve, as appropriate. AIR transfers to the fiduciary net
  position and the subsequent AIR benefit payments were estimated and included in the
  projections.

## NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

## **NOTE 9: DEFINED BENEFIT PENSION PLAN** (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

- The projected benefit payments reflect the lowered annual increase cap, from 1.50 percent to 1.25 percent resulting from the 2018 AAP assessment, statutorily recognized July 1, 2019, and effective July 1, 2020.
- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, the projection test indicates the SCHDTF's fiduciary net position was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination does not use the municipal bond rate, and therefore, the discount rate is 7.25 percent.

There was no change in the discount rate from the prior measurement date.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate. The following presents the proportionate share of the net pension liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

		Current	
	1% Decrease	Discount	1% Increase
	(6.25%)	Rate (7.25%)	(8.25%)
Proportionate share of the net			
pension liability	\$ 18,896,871	\$ 14,248,734	\$ 10,346,217

Pension plan fiduciary net position. Detailed information about the SCHDTF's fiduciary net position is available in PERA's CAFR which can be obtained at <a href="https://www.copera.org/investments/pera-financial-reports">www.copera.org/investments/pera-financial-reports</a>.

# NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

### NOTE 10: <u>DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN</u>

### **Summary of Significant Accounting Policies**

OPEB. The District participates in the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit OPEB fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the HCTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefits paid on behalf of health care participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

### General Information about the OPEB Plan

Plan description. Eligible employees of the District are provided with OPEB through the HCTF—a cost-sharing multiple-employer defined benefit OPEB plan administered by PERA. The HCTF is established under Title 24, Article 51, Part 12 of the Colorado Revised Statutes (C.R.S.), as amended. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. Title 24, Article 51, Part 12 of the C.R.S., as amended, sets forth a framework that grants authority to the PERA Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at <a href="https://www.copera.org/investments/pera-financial-reports">www.copera.org/investments/pera-financial-reports</a>.

Benefits provided. The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans, however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit. For members who retire having service credit with employers in the Denver Public Schools (DPS) Division and one or more of the other four Divisions (State, School, Local Government and Judicial), the premium subsidy is allocated between the HCTF and the Denver Public Schools Health Care Trust Fund (DPS HCTF). The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

# NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

# NOTE 10: <u>DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN</u> (Continued)

## General Information about the OPEB Plan (Continued)

C.R.S. § 24-51-1202 et seq. specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure and all retirees under the DPS benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare. Upon the death of a DPS benefit structure retiree, no further subsidy is paid.

Enrollment in the PERACare is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

### PERA Benefit Structure

The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF or the DPS HCTF on behalf of benefit recipients not covered by Medicare Part A.

## NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

# NOTE 10: <u>DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN</u> (Continued)

## General Information about the OPEB Plan (Continued)

### DPS Benefit Structure

The maximum service-based premium subsidy is \$230 per month for retirees who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for retirees who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum subsidy, in each case, is for retirees with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The retiree pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For retirees who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, the HCTF or the DPS HCTF pays an alternate service-based premium subsidy. Each individual retiree meeting these conditions receives the maximum \$230 per month subsidy reduced appropriately for service less than 20 years, as described above. Retirees who do not have Medicare Part A pay the difference between the total premium and the monthly subsidy.

Contributions. Pursuant to Title 24, Article 51, Section 208(1) (f) of the C.R.S., as amended, certain contributions are apportioned to the HCTF. PERA-affiliated employers of the State, School, Local Government, and Judicial Divisions are required to contribute at a rate of 1.02 percent of PERA-includable salary into the HCTF.

Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contributions. Employer contributions recognized by the HCTF from the District were \$58,383 for the year ended June 30, 2020.

# OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2020, the District reported a liability of \$700,700, for its proportionate share of the net OPEB liability. The net OPEB liability for the HCTF was measured as of December 31, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2018. Standard update procedures were used to roll-forward the total OPEB liability to December 31, 2019. The District's proportion of the net OPEB liability was based on the District's contributions to the HCTF for the calendar year 2019 relative to the total contributions of participating employers to the HCTF.

# NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

# NOTE 10: <u>DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN</u> (Continued)

# OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

At December 31, 2019, the District's proportion was 0.06234 percent, which was an increase of 0.00245% from its proportion measured as of December 31, 2018.

For the year ended June 30, 2020, the District recognized OPEB expense of \$32,060. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred</u> <u>Outflows of</u> <u>Resources</u>	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 2,325	\$ 117,743
Changes of assumptions or other inputs	\$ 5,813	N/A
Net difference between projected and actual earnings on OPEB plan investments	N/A	\$ 11,696
Changes in proportion and differences between contributions recognized and proportionate share of contributions	\$ 27,792	\$ 59,356
Contributions subsequent to the measurement date	\$ 30,223	N/A
Total	\$ 66,153	\$ 188,795

\$30,223 reported as deferred outflows of resources related to OPEB, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended, June 30,	
2021	(\$ 35,933)
2022	(\$ 35,932)
2023	(\$ 32,545)
2024	(\$ 29,734)
2025	(\$ 17,676)
Thereafter	(\$ 1,045)

## NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

# NOTE 10: <u>DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN</u> (Continued)

# OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Actuarial assumptions. The total OPEB liability in the December 31, 2018 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.40 percent
Real wage growth	1.10 percent
Wage inflation	3.50 percent
Salary increases, including wage inflation	3.50 percent in aggregate
Long-term investment rate of return, net of OPEB	
plan investment expenses, including price inflation	7.25 percent
Discount rate	7.25 percent

Health care cost trend rates PERA benefit structure:

Service-based premium subsidy 0.00 percent

PERACare Medicare plans 5.60 percent in 2019, gradually

decreasing to 4.50 percent in

2029

Medicare Part A premiums 3.50 percent in 2019, gradually

increasing to 4.50 percent in

2029

DPS benefit structure:

Service-based premium subsidy 0.00 percent

PERACare Medicare plans N/A Medicare Part A premiums N/A

Calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each actuarial valuation and on the pattern of sharing of costs between employers of each fund to that point.

# NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

# NOTE 10: <u>DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN</u> (Continued)

# OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

The actuarial assumptions used in the December 31, 2018, valuation were based on the results of the 2016 experience analysis for the periods January 1, 2012, through December 31, 2015, as well as, the October 28, 2016, actuarial assumptions workshop and were adopted by the PERA Board during the November 18, 2016, Board meeting. In addition, certain actuarial assumptions pertaining to per capita health care costs and their related trends are analyzed and reviewed by PERA's actuary, as discussed below.

In determining the additional liability for PERACare enrollees who are age sixty-five or older and who are not eligible for premium-free Medicare Part A, the following monthly costs/premiums are assumed for 2019 for the PERA Benefit Structure:

Medicare Plan	Cost for Members Without Medicare Part A	Premiums for Members Without Medicare Part A
Medicare Advantage/Self-Insured		
Prescription	\$601	\$240
Kaiser Permanente Medicare Advantage		
НМО	605	237

The 2019 Medicare Part A premium is \$437 per month.

In determining the additional liability for PERACare enrollees in the PERA Benefit Structure who are age sixty-five or older and who are not eligible for premium-free Medicare Part A, the following chart details the initial expected value of Medicare Part A benefits, age adjusted to age 65 for the year following the valuation date:

Medicare Plan	Cost for Members Without Medicare Part A
Medicare Advantage/Self-Insured Prescription	\$562
Kaiser Permanente Medicare Advantage HMO	571

All costs are subject to the health care cost trend rates, as discussed below.

# NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

# NOTE 10: <u>DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN</u> (Continued)

# OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A.

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models and industry methods developed by health plan actuaries and administrators.

In addition, projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services are referenced in the development of these rates. Effective December 31, 2018, the health care cost trend rates for Medicare Part A premiums were revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The PERA benefit structure health care cost trend rates that were used to measure the total OPEB liability are summarized in the table below:

	PERACare	Medicare Part A
Year	Medicare Plans	Premiums
2019	5.60%	3.50%
2020	8.60%	3.50%
2021	7.30%	3.50%
2022	6.00%	3.75%
2023	5.70%	3.75%
2024	5.50%	3.75%
2025	5.30%	4.00%
2026	5.10%	4.00%
2027	4.90%	4.25%
2028	4.70%	4.25%
2029+	4.50%	4.50%

Mortality assumptions for the determination of the total pension liability for each of the Division Trust Funds as shown below are applied, as applicable, in the determination of the total OPEB liability for the HCTF. Affiliated employers of the State, School, Local Government, and Judicial Divisions participate in the HCTF.

# NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

# NOTE 10: <u>DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN</u> (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Healthy mortality assumptions for active members were based on the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Post-retirement non-disabled mortality assumptions for the State and Local Government Divisions were based on the RP-2014 Healthy Annuitant Mortality Table, adjusted as follows:

- Males: Mortality improvement projected to 2018 using the MP-2015 projection scale, a 73 percent factor applied to rates for ages less than 80, a 108 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 78 percent factor applied to rates for ages less than 80, a 109 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

Post-retirement non-disabled mortality assumptions for the School and Judicial Divisions were based on the RP-2014 White Collar Healthy Annuitant Mortality Table, adjusted as follows:

- Males: Mortality improvement projected to 2018 using the MP-2015 projection scale, a 93 percent factor applied to rates for ages less than 80, a 113 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- Females: Mortality improvement projected to 2020 using the MP-2015 projection scale, a 68 percent factor applied to rates for ages less than 80, a 106 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

## NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

# NOTE 10: <u>DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN</u> (Continued)

# OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

The following health care costs assumptions were updated and used in the measurement of the obligations for the HCTF:

- Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premiumfree Medicare Part A benefits were updated to reflect the change in costs for the 2019 plan year.
- The morbidity assumptions were updated to reflect the assumed standard aging factors.
- The health care cost trend rates for Medicare Part A premiums were revised to reflect the then-current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016.

Several factors were considered in evaluating the long-term rate of return assumption for the HCTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the most recent adoption of the long-term expected rate of return by the PERA Board, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

## NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

# NOTE 10: <u>DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN</u> (Continued)

# OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Asset Class	Target	30 Year Expected
	Allocation	Geometric Real
		Rate of Return
U.S. Equity – Large Cap	21.20%	4.30%
U.S. Equity – Small Cap	7.42%	4.80%
Non U.S. Equity – Developed	18.55%	5.20%
Non U.S. Equity – Emerging	5.83%	5.40%
Core Fixed Income	19.32%	1.20%
High Yield	1.38%	4.30%
Non U.S. Fixed Income – Developed	1.84%	0.60%
Emerging Market Debt	0.46%	3.90%
Core Real Estate	8.50%	4.90%
Opportunity Fund	6.00%	3.80%
Private Equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	100.00%	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25 percent.

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the Health Care Cost Trend Rates. The following presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

			1%
	1% Decrease	Current	Increase in
	in Trend	Trend	Trend
	Rates	Rates	Rates
Initial PERACare Medicare trend rate	4.60%	5.60%	6.60%
Ultimate PERACare Medicare trend rate	3.50%	4.50%	5.50%
Initial Medicare Part A trend rate	2.50%	3.50%	4.50%
Ultimate Medicare Part A trend rate	3.50%	4.50%	5.50%
Net OPEB Liability	\$ 684,055	\$ 700,700	\$ 719,934

## NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

# NOTE 10: <u>DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN</u> (Continued)

# OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Discount rate. The discount rate used to measure the total OPEB liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2019, measurement date.
- Total covered payroll for the initial projection year consists of the covered payroll of the
  active membership present on the valuation date and the covered payroll of future plan
  members assumed to be hired during the year. In subsequent projection years, total
  covered payroll was assumed to increase annually at a rate of 3.50 percent.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date.
- Employer contributions and the amount of total service costs for future plan members
  were based upon a process to estimate future actuarially determined contributions
  assuming an analogous future plan member growth rate.
- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, the projection test indicates the HCTF's fiduciary net position was projected to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent.

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the discount rate. The following presents the proportionate share of the net OPEB liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

OPEB plan fiduciary net position. Detailed information about the HCTF's fiduciary net position is available in PERA's CAFR which can be obtained at <a href="https://www.copera.org/investments/pera-financial-reports">www.copera.org/investments/pera-financial-reports</a>.

### NOTE 11: <u>RISK MANAGEMENT</u>

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; and natural disasters. The District participates in the Colorado School District Self Insurance Pool. The Pool insures property and liability exposures through contributions made by member districts. The District does not maintain an equity interest in the self insurance pool. The District funds its pool contributions, outside insurance purchases, deductibles, and uninsured losses through the General Fund. The District is fully self insured for unemployment compensation and has a \$1,000 deductible for property insurance.

The District continues to carry commercial insurance for all other risks of loss, including boiler and machinery coverage. Settled claims resulting from these risks have not exceeded commercial or District coverage in any of the past three years.

### NOTE 12: COMMITMENTS AND CONTINGENCIES

### Claims and Judgments

The District participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the District may be required to reimburse the grantor government. As of June 30, 2020, significant amounts of grant expenditures have not been audited but the District believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on the overall financial position of the District.

# NOTES TO THE FINANCIAL STATEMENTS June 30, 2020

## NOTE 12: COMMITMENTS AND CONTINGENCIES (Continued)

#### **Tabor Amendment**

In November 1992, Colorado voters passed the Tabor Amendment to the State Constitution which limits state and local government tax powers and imposes spending limitations. In November 1998, electors within the District authorized the District to collect, retain and expend all revenues collected or received by the District effective for the 1996-97 fiscal year and each subsequent year thereafter, notwithstanding the limitations of the Amendment. The Tabor Amendment is subject to many interpretations, but the District believes it is in substantial compliance with the Amendment. A reservation of equity in the General Fund, Food Services Fund, Grant Fund, Bond Proceeds Fund, Capital Reserve Fund, and Tuition Preschool Fund in the amounts of \$290,115, \$3,400, \$2,221, \$1,093, \$4,865, and \$1,729, respectively, has been recorded as an emergency reserve in accordance with the Amendment.

### NOTE 13: <u>RESTATEMENT OF NET POSITION</u>

The beginning net position of the governmental activities was increased by \$208,858 to restate the beginning accumulated depreciation reported for Capital Assets.

### NOTE 14: <u>DEFICIT NET POSITION</u>

The Net Position of the government type activities is in a deficit position of \$2,859,200 due to the District including the Net Pension and Net OPEB Liability per GASB Nos. 68 and 75

### NOTE 15: SUBSEQUENT EVENTS

### COVID-19

As a result of the coronavirus pandemic (COVID-19), economic uncertainties may have economic implications on the financial position, results of operations and cash flows of the District. The duration of these uncertainties and the ultimate financial effects cannot be estimated at this time.

Board of Education Clear Creek School District No. RE-1 Idaho Springs, Colorado

## INDEPENDENT AUDITORS' REPORT ON ELECTRONIC FINANCIAL DATA INTEGRITY CHECK FIGURES

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Clear Creek School District No. RE-1, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the basic financial statements of the District, as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expression an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluation the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Other Matters

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Clear Creek School District No. RE-1's basic financial statements. The accompanying electronic financial data integrity check figures listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying electronic financial data integrity check figures is fairly stated in all material respects in relation to the financial statements as a whole.
